

LondonCoin Systems, Ltd

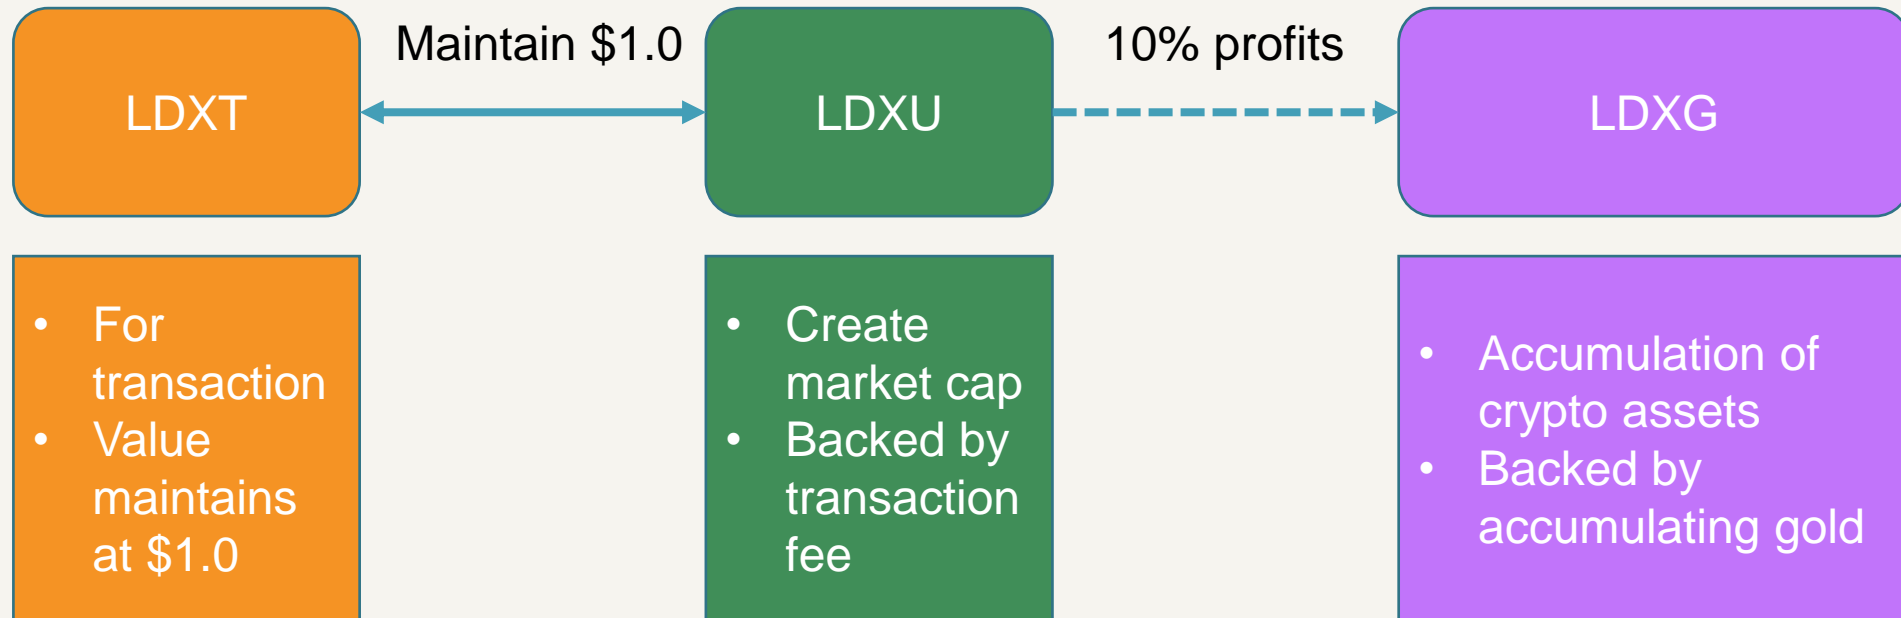

LDXT

Scalable Gold Backed Stable Coin

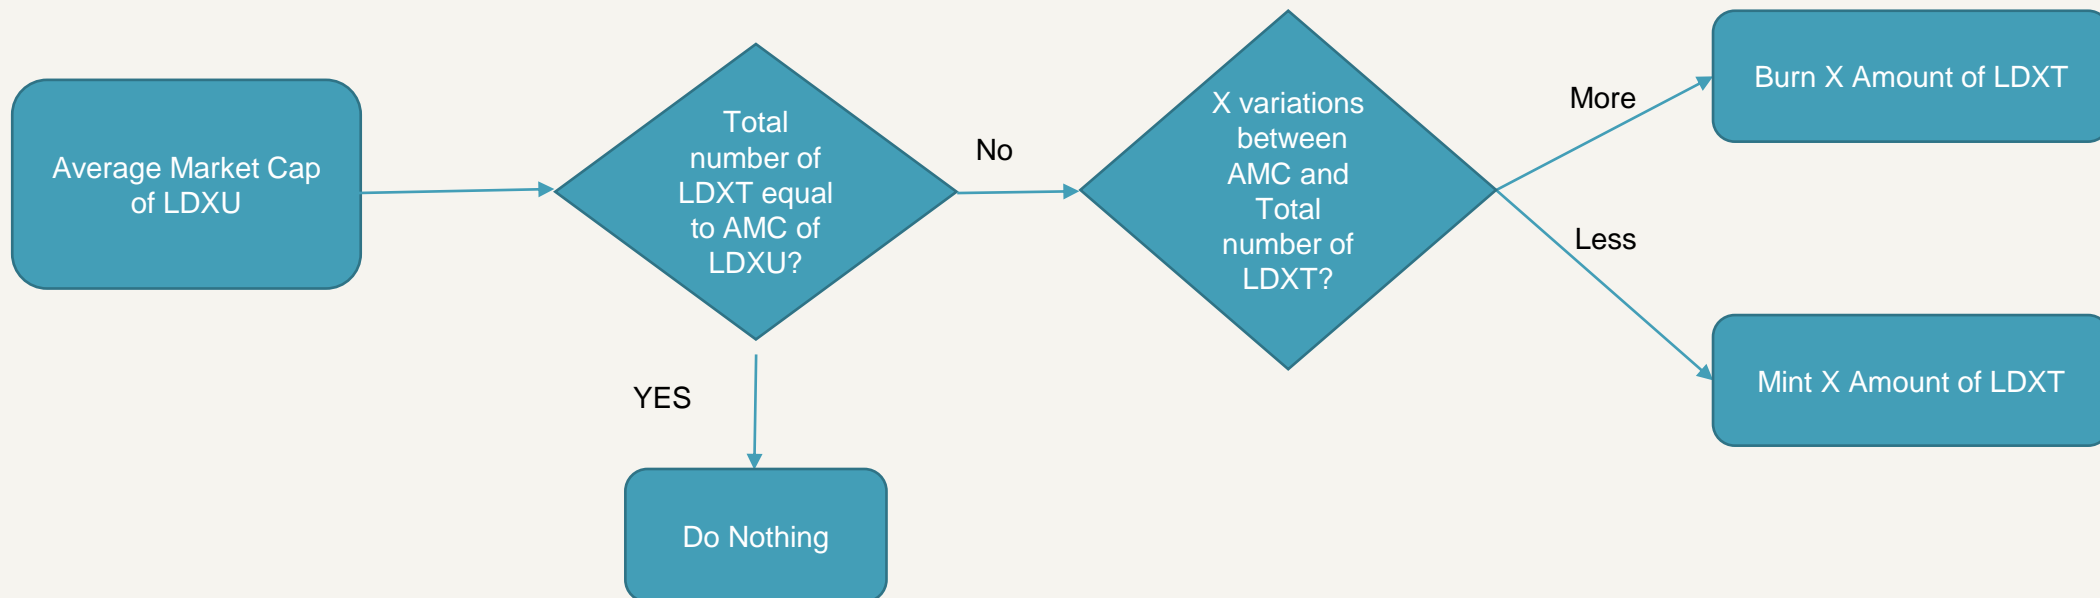

SUMMARY

- LDXT is a stable coin based on the market cap of LDXU where the values of LDXT is maintained to \$1.0 US dollar by having exactly the same amount of LDXT against the same amount of LDXU market cap which is maintained daily with Cosmos Tendermint Zone blockchain smart contract. i.e. Total market cap of LDXU/The same number of LDXT = \$1.0, For example if the total market cap is \$100M, then the total amount of LDXT minted is 100M.
- The transaction fee of LDXT is 0.1% which will be used to purchase gold in order to create the intrinsic value of LDXU.
- The purchased gold will accumulated forever by DAO.
- LDXT transaction and reserves for cash will be based on multiple PG network chosen randomly.
